

## SEA CRYSTALS WITH EUCALYPTUS, MELALEUCA & WINTERGREEN

Sea Crystals with Eucalyptus, Melaleuca  
& Wintergreen

### WHY CHOOSE?

The Sea Crystals with Eucalyptus, Melaleuca & Wintergreen are salts for soaking the feet. They are especially suitable for tired feet that sweat a lot or not enough! The sea crystals contain all the essential elements required for the proper functioning and health of the skin. They are also enriched with other elements that are easily absorbed through the skin when bathing and they quickly pass through the body's circulatory system.

### HOW IT WORKS?

Marine minerals have a natural cleansing power, which free the pores of all impurities. They tone and moisturize the skin, tighten pores and promote the natural repair of cellular metabolism. They contribute greatly to maintain balance in the body by regulating the distribution of fluids on both sides of the cell wall. The eucalyptus, tea tree and wintergreen oils are powerful antiseptic and antifungal ingredients that help with skin irritations, swelling and help energize and refresh the skin.

KEY INGREDIENTS	BENEFITS
Eucalyptus Officinalis Leaf Oil	Known to have antiseptic, disinfectant, antifungal and blood-circulation activating properties. It is also energizing and refreshing to the skin.
Melaleuca Alternifolia (Tea Tree) Leaf Oil	Has powerful antiseptic and antifungal properties. Stimulates the immune system; helps reduce skin irritations and respiratory infections. Helps reduce symptoms of eczema and psoriasis.
Gaultheria Procumbens (Wintergreen) Oil	Acts as an anti-inflammatory, anti-rheumatic and antispasmodic. Works as counter-irritant to relieve muscle pain which helps to reduce pain and swelling in the underlying tissue of the skin.

**COSMETIC COMPOSITION**

Sea salt.

**PAO**

12 m

**NET WEIGHT**

2kg professional size or 600g retail size

**APPLICATION / METHOD OF USE**

Dissolve 1/4 cup of sea crystals in a reasonable amount of water for a foot bath (about 2 liters). Soak feet for about 7-10 minutes and pat dry the feet and in between the toes.
